

MEDICATION POLICY

A record of medication given will be kept and the learner will be asked to sign a book detailing reasons for use of the medication and dosage.

Parents are responsible for ensuring that the learner has any relevant medication required, but it is understood that situations may arise that require intervention by the school.

Permission needs to be given to the school to administer medication such as Panado and Ventolin.

This will absolve the school of any responsibility should the learner be allergic to any of the above.
